Conference Evaluation

ePrescribing: Everything that you want to know, but were afraid to ask!
Total of 76 forms completed and returned

We are very keen to learn from your feedback and improve future events we put on. Please take a few moments to complete this evaluation form before you leave.

Please circle the response that best represents your views

How did you find out about the event?				
Word of mouth 6%	From a colleague 51%	Internet 3%	Email 37%	Other (please specify) 3% (iSOFT & National eprescribing project team)

Did you find the conference website clear and concise?		
Yes = 86%	No = 4%	Not applicable = 10%

Administration prior to event and welcome				
Very poor = 0%	Poor = 0%	Average = 10%	Good = 54%	Excellent = 36%
Conference venue				
Very poor = 0%	Poor = 0%	Average = 4%	Good = 47%	Excellent = 49%
Catering facilities				
Very poor = 0%	Poor = 0%	Average = 14%	Good = 52%	Excellent = 34%
How do you rate the documents provided?				
Very poor = 0%	Poor = 0%	Average = 21%	Good = 63%	Excellent = 16%
How do you rate the overall quality of presentations?				
Very poor = 0%	Poor = 0%	Average = 10%	Good = 59%	Excellent = 31%
How do you rate the overall quality of workshops?				
Very poor = 0%	Poor = 1%	Average = 29%	Good = 62%	Excellent = 8%
How do you rate the overall quality of exhibitors?				
Very poor = 0%	Poor = 1%	Average = 26%	Good = 59%	Excellent = 14%
How do you rate the overall quality of the conference overall?				
Very poor = 0%	Poor = 0%	Average = 10%	Good = 59%	Excellent = 31%

Please list below any other topics that you might like to see covered in future conferences/workshops
Benefits – quantifying
More detailed/practical solutions innovations that can be applied/viewed now
Top tips and good practice, lessons learned from eprescribing
Using the data generated by EPMA
More detail on how to make a financial case for eprescribing
Equipment for EP and mobile carts, tablets etc
Reporting possibilities
Disaster planning, initiating cultural shift, PFI contracts
How this could be rolled out into the community
Interface & other health care settings
Raising the case for ep with trust board to convince them and procure
How to deal with downtime and how data put back into system once online again
Next steps after the initial implementation – continuing the journey

Benefits, realisation, reporting, resource/business case, negotiation
Chemo and oncology systems
I would like a showcase from the system suppliers
How to do benefit realisation/baseline research – what to try and audit?
More specific training, disaster recovery, national standards. What to measure, indicators, metrics
ROI from eprescribing – evidence of savings and reducing errors
How to assess an eprescribing system, interfacing with other systems
Practicalities and implementation
Drug file management, intergrating with other systems
Roadshows – open days at Beacon site hospitals
More of the benefits
EPMA not just EP
Evidence of benefits from E rx. Honest feedback from sites who have implemented E Rx
Benefits, realisation workshops, transformational change
Electronic transfer of information across care settings
Role of connecting for health in eprescribing
More time about using the systems once in place
Choosing a system
Specific thergentic areas – paeds, critical care, oncology
Interface between different systems and across primary and secondary care
More experiences from different trusts
Examples of best practice – upload on website
Workshops with those areas that have actually gone live

Please use this space for any additional comments that you may have in relation to the conference
Good conference if starting out on road to eprescribing – for those that have gone live – learnt a few tips but it read like all the problems we have faced/currently facing
Disappointing that not all the suppliers are present at the meeting
Would like to have heard about research relating to eprescribing
Hope this is an opportunity to make contacts with others getting eprescribing up and running
Not all suppliers of eprescribing systems exhibiting
Presentation from Dame Julie Moore was excellent
Need a group or series of workshops aimed at those doing EPMA for more advanced shared learing
Very much appreciated the bibliography
Really informative, thanks
Excellent day
Would like to see a national database of who is doing what, where
Well balanced with breaks
Update events, feedback early results
Where were ascribe & rio
Excellent place to have a conference – except a few speakers could not be heard at the back
Dame Julie Moore speech on importance to hear and her trust was particularly valuable
I would have liked more time during the workshops – they were rushed
Networking = excellent
Useful bibliography, very UHB heavy? Software company bias?
As someone who has already implemented EP, only 1 workshop had any direct relevance

and this one was aspirational but not directly relevant to our current experience
I think it would have been useful to put together groups who are at similar stages in the process and facilitated a discussion. Tendency to stick with people you know (often the same EP system)
Possible conflict of interest – UHB are looking to comercialise/sell their system. Could be made apparent, How is info going to be used?
It would have been more helpful to see presentation from the different sponsors on the system and to have some evaluation of good and bad points. I do not feel I have learnt anymore today that is going to help me decide which system to use

Thank you very much for your time. Please hand the completed form to the reception desk.
