

ENACT is funded by the NIHR to investigate clinical audit and feedback. We are working with audits to make feedback from reports more useful to clinicians and managers. Thank-you for agreeing to take part in this online study.

Please use Chrome, Safari, Firefox, Microsoft Edge or Internet Explorer 11 on a desktop or laptop computer to participate in the study.

If you have recently tried to access the study and been unable to do so, please accept our apologies. We suspended the website to improve the process for verifying participants and ensuring completion by those who work in a relevant organisation. Participants now need to enter their NHS or HSCNI email address to take part.

Please do not attempt to complete the study more than once. We are grateful for the many responses we have received so far.

Overview

It will take about 15 minutes to complete.

1 Consent

You will be asked to confirm that you are happy to proceed

2 Choose audit

You will tell us your audit and job role

3 Review report

You will see a single page with elements of feedback from an audit report

4 Complete survey

Finally, you will complete a survey about your experience
