

Trial group	AE Number	Other AE	Time to AE (weeks)	Intensity	Outcome	Related to Adverse Intervention	Serious Event	Ongoing as of study
Pacifica	1	Admission to hospital: non-specific symptoms	21.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	2	Hospital admission for skin ulcer on ankle and ulcer on left BC fistula	105.1	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	3	Admission for elective Excision of skin ulcer over left brachiocephalic fistula	106.2	2. Moderate	2. Resolved with sequelae	5. None	0. No	0. No
Pacifica	4	Hospital admission with fall	105.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	5	Hospital admission with Cellulitis	125.1	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	6	Hospital admission with fall	129.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	7	Admission to local hospital for toe amputation prolonged by bleeding from toe	139.1	2. Moderate	2. Resolved	5. None	1. Yes	0. No
Pacifica	8	Admission to hospital for fractured left hip following fall	40.5	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	9	Admitted with anemia and swollen finger	1.3	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	10	Probable central venous catheter line infection	9.3	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	11	Admitted to local hospital with confusion and high CrP	1.5	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	12	4 breathless and CDT infection	13.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	13	patient died on the 25 Feb 2017	23.2	3. Severe	3. Death	5. None	1. Yes	0. No
Pacifica	14	patient died	22.3	3. Severe	4. Death	5. None	1. Yes	0. No
Pacifica	15	Hospital admission with infected fistula	13.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	16	Planned hospital admission for left BC AVR thrombectomy with stenting	13.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	17	Hospital Admission with left sided chest pain while on dialysis	19.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	18	Elective Admission for revision of scab over Right BC AVF	19.1	1. Mild	1. Resolved	5. None	0. No	0. No
Pacifica	19	Admitted with acute onset sharp central chest pain on starting dialysis	11.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	20	Hospital admission: central chest pain	20.5	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	21	Hospital admission: Diverticulitis	37.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	22	Admitted with chest pain	48.2	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	23	Admitted with chest pain	70.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	24	Admitted with chest pain	72.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	25	Hospital admission fall: right neck of femur fracture.	52.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	26	Hospital admission for low HB	1.5	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	27	cardiac stent	67.3	1. Mild	3. Ongoing	2. Probable	0. No	0. No
Pacifica	28	prolonged bleeding when reading fistula	40.1	1. Mild	1. Resolved	3. Possible	1. Yes	0. No
Pacifica	29	bleeding when reading fistula	74.5	1. Mild	1. Resolved	3. Possible	0. No	0. No
Pacifica	30	hypertension	18.1	1. Mild	1. Resolved	5. None	0. No	0. No
Pacifica	31	Hospitalisation Due to Shortness of Breath	7.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	32	hypertension - 7.2	21.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	33	Presented with pyrexial and SOB. Had crepitations bilaterally. Antibiotics & steroids treatment	38.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	34	increase SOB and decompensated type I respiratory failure	97.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	35	suspected endocarditis/IE negative	119.1	1. Mild	1. Ongoing	5. None	1. Yes	0. No
Pacifica	36	Patient Experience difficulty breathing during HD	130.3	3. Severe	4. Death	5. None	1. Yes	0. No
Pacifica	37	Admitted into hospital due to fall and Urorepis	30.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	38	Admitted to hospital due to falling on right side of his scrotum.	40.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	39	Lower Respiratory chest infection	55.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	40	Shortness of breath, and a cough	57.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	41	Shortness of breath and fluid overload	61.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	42	Patient admitted due to SOB and chest pain, left sided tightness radiating to shoulder	49.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	43	Admitted with uncontrolled hypertension and headache, in ended up in ICU and intubated.	51.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	44	Patient admitted due to CPA and Sepsis	21.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	45	Admitted for intervention to dysfunctional AVF, requiring intervention, AVF repaired on the 23/1/2017	21.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	46	Admitted with multi organ failure, requiring long hospitalisation	22.3	3. Severe	4. Death	5. None	1. Yes	1. Yes
Pacifica	47	Chest Cancer which ending after dialysis. Biopsy under CR. Abnormal, hospitalised.	72.1	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	48	Microtic LF ulcer, 4th and 5th metastatic. Debridement and amputation due to failed medical management	31.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	49	Myocardial infarction	47.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	50	fall of home sustaining fractured femur and humerus.	42.3	3. Severe	1. Resolved	5. None	1. Yes	0. No
Pacifica	51	death	29.3	3. Severe	4. Death	4. Remote	1. Yes	0. No
Pacifica	52	sepsis	10.5	3. Severe	4. Death	4. Remote	1. Yes	0. No
Pacifica	53	Central pain terminal Diagnosis of Cancer therefore Consultant felt patient should not remain on a	29.3	3. Severe	4. Death	5. None	1. Yes	0. No
Pacifica	54	Atrial Fibrillation	21.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	55	peristaltic bleeding of right BC/AV fistula post dialysis	85.3	3. Severe	1. Resolved	5. None	1. Yes	0. No
Pacifica	56	Clotted fistula	13.1	1. Mild	1. Resolved	5. None	0. No	0. No
Pacifica	57	Pain following thrombospilation. PT flat parasthesis and pain in hand.	35.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	58	Clotted fistula	114.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	59	Chest pain & hypotension	104.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	60	Chest infection	30.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	61	Fistula noted to be aneurysmal. Reviewed by vascular access nurse, for monthly review.	63.1	1. Mild	3. Ongoing	5. None	0. No	1. Yes
Pacifica	62	Gastroenteritis	75.3	3. Severe	1. Resolved	5. None	1. Yes	0. No
Pacifica	63	death	80.3	3. Severe	4. Death	5. None	1. Yes	0. No
Pacifica	64	hypertension	85.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Pacifica	65	death (IAD 049)	62.3	3. Severe	4. Death	5. None	1. Yes	1. Yes
Pacifica	66	sepsis (IAD 049)	31.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	67	transient ischaemic attack	84.5	1. Mild	1. Resolved	5. None	0. No	0. No
Pacifica	68	Community Acquired Pneumonia (Original diagnosis of left ventricular failure)	13.3	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	69	Clotted fistula	61.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	70	sepsis	1.3	3. Severe	4. Death	5. None	1. Yes	1. Yes
Pacifica	71	soft tissue injury	1.3	2. Moderate	3. Ongoing	5. None	1. Yes	0. No
Pacifica	72	death	28.1	3. Severe	4. Death	5. None	1. Yes	0. No
Pacifica	73	death	28.1	3. Severe	4. Death	5. None	1. Yes	1. Yes
Pacifica	74	Urinary Tract Infection	37.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	1. Yes
Pacifica	75	Admission for antibiotic TRBT and MME	45.1	1. Mild	1. Resolved	5. None	0. No	0. No
Pacifica	76	Admission for collapse- syncope, likely vestibular	49.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	77	Admission for bleeding from AV fistula	62.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	78	NOTES	69.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	79	jar	89.2	2. Moderate	2. Resolved with sequelae	5. None	0. No	1. Yes
Pacifica	80	Elective hip replacement	12.5	1. Mild	3. Ongoing	5. None	0. No	0. No
Pacifica	81	death	30.5	3. Severe	4. Death	3. Probable	0. No	0. No
Pacifica	82	injury to right hand with incidental finding of Left radius and old left ulnar fracture	7.3	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	83	death	13.3	3. Severe	4. Death	5. None	1. Yes	0. No
Pacifica	84	abscessation of copd	11.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Pacifica	85	abscessation of copd and pulmonary oedema	17.3	3. Severe	1. Resolved	5. None	1. Yes	0. No
Pacifica	86	indwelling bilateral ureteric stents fell out	18.3	1. Mild	1. Resolved	5. None	1. Yes	0. No
Pacifica	87	death	84.3	3. Severe	4. Death	5. None	1. Yes	0. No
Pacifica	88	Event leading to death- chest sepsis	3.5	3. Severe	4. Death	5. None	1. Yes	0. No
Pacifica	89	Diabetic foot ulcer	4.3	3. Severe	1. Resolved	5. None	1. Yes	0. No
Standard	1	Hospital admission for chest pain	184.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	2	Admitted with bleeding from aneurysmal section of AVF	13.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	3	Thrombosed fistula	32.3	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	4	Hospital admission with Hypertension	70.3	1. Mild	1. Resolved	5. None	1. Yes	0. No
Standard	5	Hospital admission for Community Acquired Pneumonia	21.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	6	Hospital admission for 1 sided pleural effusion and pulmonary oedema	26.3	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	7	Hospital admission Admitted with worsening SOB, cough and left chest pain.	96.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	8	Diabetic foot infection necrotic toes	21.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	9	Patient had had a cardiac event and died	35.1	2. Moderate	2. Resolved with sequelae	5. None	0. No	0. No
Standard	10	NOTES	51.3	3. Severe	4. Death	5. None	1. Yes	0. No
Standard	11	Hospitalisation	11.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Standard	12	Dilated bile duct and pleural effusion	17.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	13	Pleural Effusion	18.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	14	Pneumonia	21.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	15	Chest Infection	16.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Standard	16	Acute sigmoid diverticulitis	56.1	1. Mild	1. Resolved	5. None	1. Yes	0. No
Standard	17	Abdominal Pain	109.1	1. Mild	1. Resolved	5. None	0. No	0. No
Standard	18	Admitted for Angiogram following NSTEMI	29.3	3. Severe	1. Resolved	5. None	1. Yes	0. No
Standard	19	Right Toe Pain	14.2	2. Moderate	1. Resolved	5. None	0. No	0. No
Standard	20	hypertension	23.1	1. Mild	3. Ongoing	5. None	0. No	1. Yes
Standard	21	Constipation	24.1	1. Mild	3. Ongoing	5. None	0. No	1. Yes
Standard	22	hypertension	24.1	1. Mild	3. Ongoing	5. None	0. No	1. Yes
Standard	23	Shortness of breath	13.3	3. Severe	4. Death	5. None	1. Yes	0. No
Standard	24	hypertension	46.3	1. Mild	3. Ongoing	5. None	0. No	1. Yes
Standard	25	Hospitalization due to bowel obstruction	29.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	26	Wash on both arms requiring Povidone, post grafty. Lasted for 3 hours	10.1	1. Mild	1. Resolved	4. Possible	0. No	1. Yes
Standard	27	Admission due to toshis (description of symptoms)	134.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	28	Patient passed away	93.3	3. Severe	4. Death	5. None	1. Yes	0. No
Standard	29	Cholecystitis	50.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	30	recurrent cholecystitis	13.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	31	recurrent cholecystitis	54.3	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	32	fluid overload	40.3	3. Severe	1. Resolved	5. None	1. Yes	0. No
Standard	33	Pain on 2nd chest infection and acute RUQ overload	13.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	34	subdural Hematoma	51.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	35	metastatic Hemangiomas	49.3	3. Severe	4. Death	5. None	1. Yes	0. No
Standard	36	Admitted with osteomyelitis after Holiday in Bang adeh. Discharged after few days.	141.1	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	37	Amputation of 2 Distal and Middle Index Phalangeal	13.2	2. Moderate	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	38	fluid overload and lower respiratory infection needing hospitalisation	5.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	39	fluid overload and lower respiratory infection needing hospitalisation.	13.2	2. Moderate	1. Resolved	5. None	1. Yes	0. No
Standard	40	Urorepis, hypotension, unfit for dialysis, end of life care	48.3	3. Severe	4. Death	5. None	1. Yes	1. Yes
Standard	41	Infected deep dermal burns, needing wound debridement and antibiotics, refused bed ow knee amputation	16.3	3. Severe	2. Resolved with sequelae	5. None	1. Yes	0. No
Standard	42	Mechanical fall at home whilst pulling on his trousers, in theatre, had R hip hemiarthroplasty.	21.3	3. Severe
