NIHR Health Technology Assessment
programme funded project

This questionnaire is about your current and ideal surveillance mammography practice for women who have had breast conserving surgery or mastectomy for primary breast cancer. This survey should take no longer than 5-10 minutes to complete.

6. Do you ever vary your standard surveillance mammography practice for women who have had breast conserving surgery?

Please select... [dropdown]

7. Please tick all that apply...

7a. In situ cancers (DCIS, LCIS) ... for which in situ tumours do you vary your standard surveillance mammography practice

[input] e.g. DCIS tumours

How soon after completing breast conserving surgery for primary breast cancer do you initiate surveillance mammography?

[input]

How often do you arrange surveillance mammography?

Please select... [dropdown]

If other, please describe

[input]

7b.

Primary tumour size ... for tumours above what size do you vary your standard follow up (in cms)

[input] e.g. tumours greater than 5cm

How soon after completing breast conserving surgery for primary breast cancer do you initiate surveillance mammography?

[input]

How often do you arrange surveillance mammography?

Please select... [dropdown]

If other, please describe

[input]

7c.

Primary tumour grade ... for which grades(s) do you vary your standard surveillance mammography practice

[input] e.g. tumours greater than grade 1

How soon after completing breast conserving surgery for primary breast cancer do you initiate surveillance mammography?

[input]

How often do you arrange surveillance mammography?

Please select... [dropdown]

If other, please describe

[input]

7d.

Lymphovascular invasion
How soon after completing breast conserving surgery for primary breast cancer do you initiate surveillance mammography?
How often do you arrange surveillance mammography?

[input]

Please select... [dropdown]

If other, please describe

[input]

7e. Age ... for which ages do you vary your standard surveillance mammography practice e.g. under 30 years

How soon after completing breast conserving surgery for primary breast cancer do you initiate surveillance mammography?

How often do you arrange surveillance mammography? Please select... If other, please describe

7f. Absence of radiotherapy

How soon after completing breast conserving surgery for primary breast cancer do you initiate surveillance mammography?

How often do you arrange surveillance mammography? Please select... If other, please describe

7g. Combination of criteria above ... Please describe which criteria you combine e.g. women under 30 who has lymphovascular invasion

How soon after completing breast conserving surgery for primary breast cancer do you initiate surveillance mammography?

How often do you arrange surveillance mammography? Please select... If other, please describe

7h. Other ... Other criteria not listed above

How soon after completing breast conserving surgery for primary breast cancer do you initiate surveillance mammography?

How often do you arrange surveillance mammography?

For women who have had mastectomy

8. Please describe your surveillance mammography practice for the contralateral breast for women who have had mastectomy

8a. I initiate surveillance mammography after mastectomy for primary breast cancer

8b. I arrange surveillance mammography Please select... If other, please describe

9. Do you ever vary your standard surveillance mammography practice for the contralateral breast for women who have had mastectomy? Please select...

10. Please describe the criteria you use for varying your standard surveillance mammography for the contralateral breast for women who have had mastectomy

How soon after completing breast conserving surgery for primary breast cancer do you initiate surveillance mammography?

How often do you arrange surveillance mammography? Please select... If other, please describe

Section C: Surveillance Mammography Scheduling and Discharge

11. Through which service is your surveillance mammography scheduled?

12. If eligible do you discharge women into the screening programme for surveillance mammography? If yes, at what age do you discharge

13. Do you discharge women from clinical follow up?
If yes, please indicate when years post surgery for primary breast cancer

13b. Do you discharge women from surveillance mammography follow up?
If yes, please indicate when years post surgery for primary breast cancer

14. Are there any exceptions to your normal surveillance mammography practice (e.g. patient participating in a clinical trial)?
If yes, can you specify what this would involve?

15. Does your current surveillance mammography practice differ from how you would ideally like to arrange surveillance mammography?

16. Can you please indicate how often you would ideally like to arrange surveillance mammography?

16a. How often would you ideally arrange surveillance mammography for women who have had breast conserving surgery? If other, please describe

16b. How often would you ideally arrange surveillance mammography for women who have had mastectomy? If other, please describe

17. If your current surveillance mammography practice differs from your ideal surveillance mammography practice what factor influence this difference?

18.
