

Health State Preference Project Survey

Please read each of the health scenarios below carefully. You would either live in scenario A for the described number of years and then die **or** live in scenario B for the described number of years and then die.

Please choose which health scenario you think is better by selecting **one** of the boxes below.

Remember that there are no right or wrong answers to any of the questions.

	Q11	Health scenario A	Health scenario B
		<ul style="list-style-type: none"> - Extreme problems in walking about - Unable to wash or dress yourself - Moderate problems doing your usual activities - Extreme pain or discomfort - Slightly anxious or depressed <p>Live for 5 years and then die</p>	<ul style="list-style-type: none"> - Slight problems in walking about - Slight problems washing or dressing yourself - Unable to do your usual activities - No pain or discomfort - Moderately anxious or depressed <p>Live for 5 years and then die</p>
	<i>Which scenario do you think is better?</i>	<input type="checkbox"/>	<input type="checkbox"/>

	Q12	Health scenario A	Health scenario B
		<ul style="list-style-type: none"> - Severe problems in walking about - Slight problems washing or dressing yourself - No problems doing your usual activities - Extreme pain or discomfort - Not anxious or depressed <p>Live for 1 year and then die</p>	<ul style="list-style-type: none"> - No problems in walking about - Moderate problems washing or dressing yourself - Moderate problems doing your usual activities - No pain or discomfort - Severely anxious or depressed <p>Live for 5 years and then die</p>
	<i>Which scenario do you think is better?</i>	<input type="checkbox"/>	<input type="checkbox"/>
